

TITLE OF THE RESEARCH PAPER

Author Name(s)

Institution / Course / Instructor

Date

Abstract

Write a clear and concise abstract summarizing the purpose, methods, key findings, and implications of your paper (150–250 words recommended).

Introduction

Introduce the topic, explain its background, and clearly state its relevance and importance. Present the main objectives or research questions of the paper.

Literature Review

Review and synthesize existing academic literature related to the topic. Highlight key findings, major debates, gaps, and how your work relates to previous studies.

Methodology

Describe the methods used in your research. Explain your data sources, approach, and any tools, frameworks, or criteria used in your analysis.

Analysis

Provide a detailed analysis of the ethical and social implications of the topic. Present well-reasoned arguments supported by evidence and examples.

Recommendations

Offer practical, realistic recommendations or solutions to address the issues discussed in the analysis section.

Conclusion

Summarize the main points, key insights, and the broader significance of the topic. Avoid introducing new arguments in this section.

References

List all sources cited in the paper using a consistent academic citation style (APA, MLA, or Chicago).
